

PAINTING FLOWERS IN WATERCOLOR - LOOSE, FRESH AND SIMPLE

This 2 day workshop focuses on capturing the essence and freshness of flowers and in watercolor using a direct painting approach. Course will include demonstrations, instruction, reference materials, critique and supervised guidance of student painting. Students are encouraged to bring in a few live flowers to paint from if possible (photos are okay as a back up). For beginners, try to select a couple of simple types of flowers(a few large petals , like tulips or lilies, rather than something with lots and lots of petals which would require more intricate drawing). Suitable for beginning and intermediate students.
